Decline the NAB's Petition 04-160, I pay for my services and when I only want weather and traffic I tune to this info via XM-radio, I don't need to heard it every 10 minutes on general broadcast, I'm tired of these special groups telling me what to listen to, and when. I don't want there broadcast, I'll chose what I listen to, via XM. That's my prividlage, which I pay for. Stay out of privat pay for service broadcast.
